

407 RIVERSIDE DRIVE

This property was identified in September, 2008 as a potential candidate for Neighborhood Preservation Program. The owner is a single female who that not only has she been very ill, but that she does not have the funds to purchase paint or pay for any services

rendered. The property owner was guided through the screening process by the Code Compliance Division and further assistance was given with the application completion and coordination of all efforts through the City's Code Compliance Division.

Upon completion of the application process, this project was scheduled and completion of painting was accom-

plished in January 2009. Thanks to the collaborative

efforts of the City of Palm Beach Gardens Code Compliance Division, Solid Waste Authority and a host of volunteers. Approximate cost savings was \$2,000.
