During the third quarter of 2016, Fire Rescue responded to 2,619 emergency calls, 84% of which were medical calls. These numbers were compared to the previous quarter and 3QTR 2015. The only appreciable difference was an increase in EMS calls by 195 from 3QTR 2015.

Chief's Ippolito and Broedell, along with members of the honor guard, attended the Fallen Firefighter Memorial Ceremony in Colorado Springs, Colorado. This year, Firemedic Shawn Thurman's name was added to the memorial wall.

For the fourth consecutive year, Palm Beach Gardens hosted the 9/11 Remembrance Ceremony at Palm Beach Gardens High School. There was a total of 825 people in attendance.

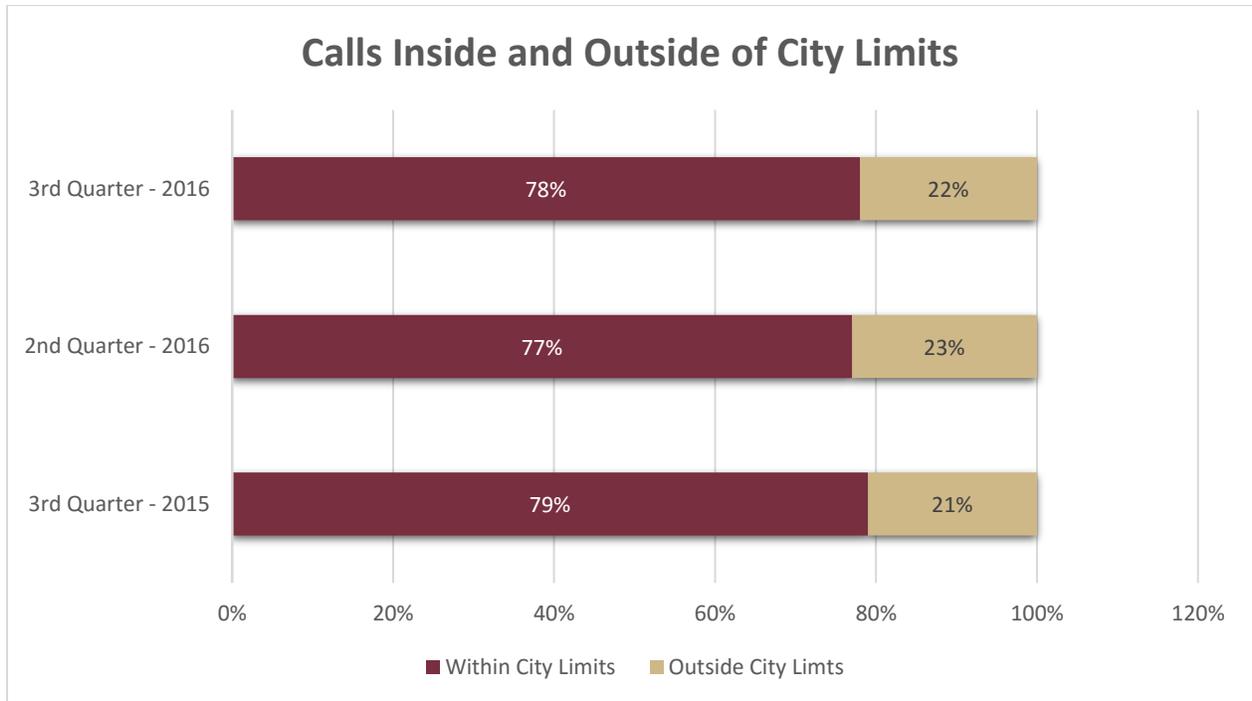

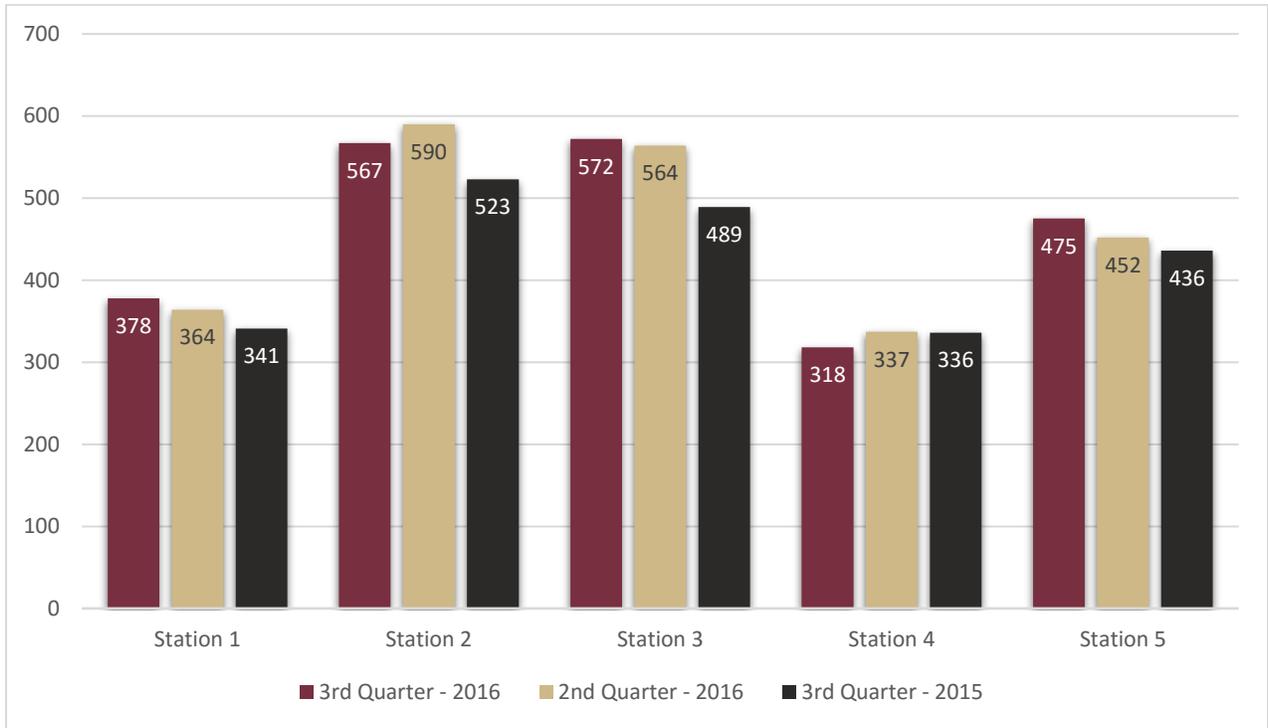

Firemedic Dave Terrana received a visit from CEO Jeff Atwater to thank him for his off-duty actions when he pulled an unresponsive man from a burning vehicle after a car accident.

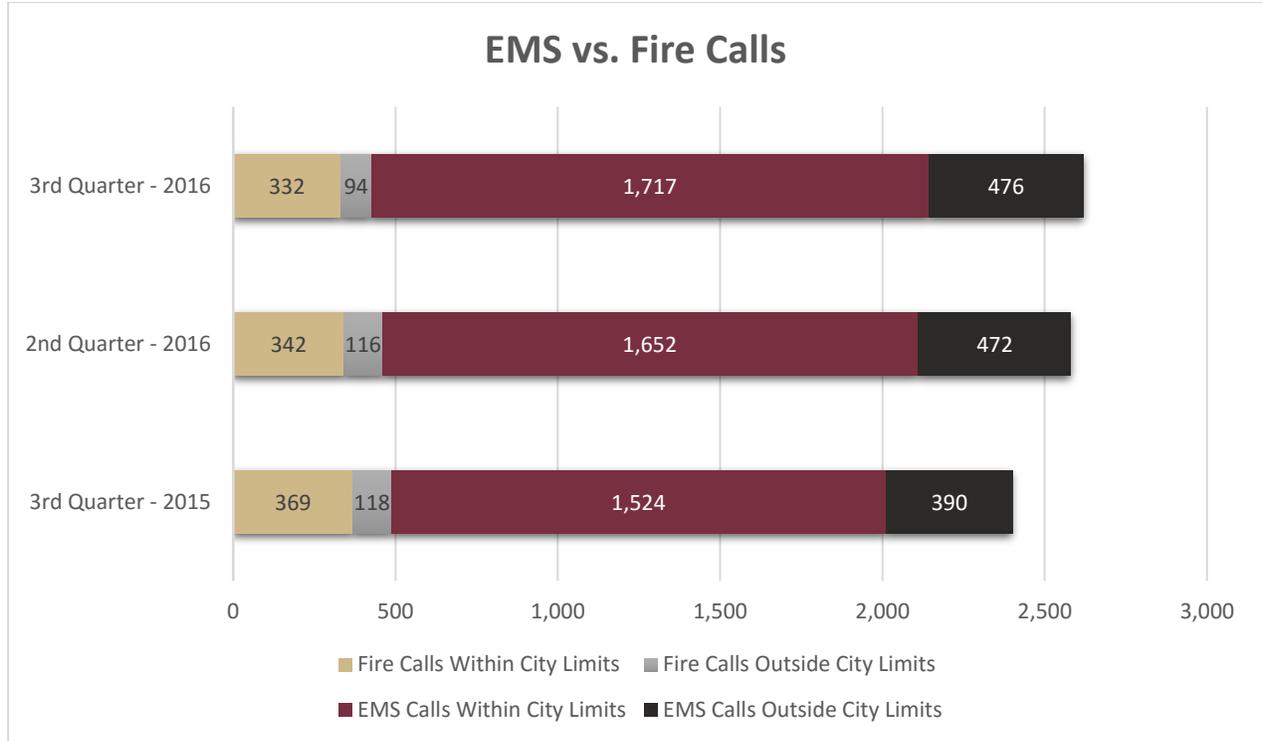

Tom Thurman places flowers at the Fallen Firefighters Memorial Wall in Colorado Springs, Colorado. His son Shawn (1970-2005), was a PBG Firemedic. His name was added to the wall this past September.

The following pages contain data, charts and highlights from the operations, training and Life Safety Divisions. The data consist of Q2 2016, as well as comparative data from the previous quarter and the Q2 data from 2015.

Total Dollar Loss indicates the estimated dollar amount needed to repair the structure and replace contents damaged by fire.

Potential Dollar Loss is the actual dollar value of the structure as per the Property Appraiser's Office. It indicates what the dollar loss would be if the structure were completely destroyed by fire. This dollar amount includes the contents of the structure, which is generally considered to be 30% of the structure's value.

There are several factors that can limit the total dollar loss amount of a structure. These include: compliance with fire codes, early detection (fire alarms), fire suppression equipment, e.g. fire sprinklers and commercial cooking fire suppression systems. Additionally, quick fire attacks made by Fire Rescue crews also play an important role in limiting the amount of damage caused by fire and smoke.
