

# THE 3 R'S: READING, RITING, & RITHMETIC

## GOAL:

**TO ENCOURAGE THE PROVISION OF QUALITY EDUCATION THROUGH WORLD CLASS CURRICULUM TO ENSURE ALL CHILDREN ARE PREPARED FOR REAL WORLD EXPERIENCES, HOLD THE NECESSARY SKILLS FOR JOBS, AND CONTINUE TO PURSUE KNOWLEDGE.**

### Objective 1:

**To Undertake Efforts to Encourage and Promote a Quality Educational Experience Tailored to Individual Student Needs.**

### The Vision Connection:

The vision holds in its list of attainable priorities, the promotion and encouragement of the highest quality educational services to its residents. The City will use its governmental ability to work within the existing system; to coordinate with the designated educational bodies to achieve this goal.

### Strategies:

- Continue to promote the positive aspects of the current education system:
  - a. Encourage the provision of diverse learning styles tailored to the learning abilities of students.
  - b. Encourage educational opportunities and curriculum selection through magnet schools and special programs.
  - c. Encourage the employment of quality teachers who are skilled and are devoted to enhancing the educational experience.
  - d. Encourage the involvement of dedicated volunteers and community resources.
  - e. Encourage diversity of the student population within each school.
- Encourage programs, strategies and practices that will enhance the educational experience, such as:
  - a. Reduce the size of schools and size of classrooms.
  - b. Encourage the selection of administrators with strong leadership and managerial skills appropriate for the educational setting.
  - c. Ensure proper allocation of fiscal resources.
  - d. Promote teaching to focus on basic job and employment skills, including reading and mathematical calculations.
  - e. Promote parental and community involvement and awareness through parenting classes.
  - f. Provide a form of school concurrency to ensure educational facilities are available when and where needed.
  - g. Encourage vocational training as an alternative for non-college bound students.
- Assume an active role in reforming the education system:
  - a. Formulate consensus, through resident input, on the major educational issues affecting the City.
  - b. Regularly meet with the School Board to advise them of the City's needs and recommend strategies or programs to address the identified needs.
  - c. Assert the City as an outspoken leader for education, and call upon the talents and influence of the community to urge changes to the education system.
  - d. Assure that all City governmental activities that impact the educational process are routinely monitored and coordinated by designated staff persons.
