

PGA BOULEVARD CONSTRUCTION ADVISORY

August 2008

In order to better serve the needs of PGA National, Mirasol and the surrounding communities, long planned improvements to PGA Boulevard are currently under construction.

Median work set to begin Monday, August 11, 2008

On Monday, August 11, 2008, contractors will be setting up traffic control for the work in the median. Sod will be removed and fill added in preparation for the installation of irrigation and landscaping in both the median and along the southern shoulder of the roadway. The landscaping and irrigation installation project is scheduled to begin September 2, 2008. There will be intermittent lane closures during landscape installation. Expect delays.

Due to the hazardous nature of road construction please review the following important points for your safety and the safety of others:

- **Follow all posted traffic signs**
- **Do not stop to talk to the workers for *any* reason**
- **Do *not* stop in the lanes or drive through any barricades**
- **Review periodic lane changes *prior* to driving whenever possible (notices indicating all scheduled lane changes will be distributed in advance)**

Additional information may also be found on the Palm Beach Gardens website

<http://www.pbqfl.com>

CONSTRUCTION ZONE

**Extends from the Turnpike entrance west
to
Ryder Cup Blvd (Mirasol main entrance)**

The Mirasol staff and the City of Palm Beach Gardens thank you for your patience while these improvements are being made to the flow of traffic.

PLEASE REFER TO CHANNEL 63, THE MIRADOR NEWSLETTER OR THE MIRASOL WEBSITES FOR FUTURE TRAFFIC UPDATES
